

TDG Ticketing Update

John McKechnie
*Director,
Engineering and
Regulatory Affairs*

A previous On track! article indicated that Transport Canada was considering the use of ticketing for dangerous goods shipping infractions. Ticketing has now firmed up as a proposal that was published in Canada Gazette I on June 16, 2007.

Examples of the infractions and fines are:

- Handle, offer for transport, transport or import dangerous goods without complying with all applicable prescribed safety requirements. **Fine \$700.**
- Handle, offer for transport, transport or import dangerous goods not accompanied by all applicable prescribed documents. **Fine \$500.**
- Display a prescribed safety mark on a means of containment or transport, or at a facility, that is misleading as to the presence of danger, the nature of any danger or compliance with any prescribed safety standard. **Fine \$500.**

The full proposal can be found on Transport Canada's web site at www.tc.gc.ca.
